

Di Challenor

CONSULTANT | SHINING STARS | GALAXY REGION

I'm a heart-centred entrepreneur and was looking for a community oriented organisation that combines business with social, community based business ethics. Once I saw all the charities PartyLite is now supporting and my Upline told me about the system changes, I thought, WOW! All these choices make joining PartyLite so easy!

This is my second time with PartyLite... I was initially with PartyLite for about 12 years, mainly a Consultant and promoted out as Unit Leader after I achieved the 2007 Incentive Trip to Tahiti. That was a great experience, being pampered as all the reviews say!

I left PartyLite to pursue running my holistic healing business, which after a while, I found was harder than I thought – constantly marketing and blogging to get clients. In 2015 I went back to full-time work, partly for the social interactions, keeping my skills up and earning a regular paycheque. In 2017 I have gone back to a previous love – designing clothes, headpieces and bespoke semi-precious stone jewellery that takes the healing energy of the stones to the wearer.

This year I have been doing what makes me happy!

I came back to PartyLite in September 2017. I spoke to Angela McCoubrie to order some Votives and Tealights and of course, she said it would be cheaper to get my candles if I joined up as a Consultant. I thought about it, looked at the PartyLite website, checked out the Incentive Trip pics, looked at the catalogue and the different joining options that are now available... I also drew some Abundance Angel Oracle Cards as that's what I like to consult when making a decision – cards drawn as shown! It's amazing... The cards are never wrong, and they gave me my answer clearly!

Angela made me feel welcome; we connected instantly and I was keen to join the 'Region of the Year' in Australia to work with other happy, inspired, positive people. Getting back into the PartyLite groove so easily has made me feel warm and fuzzy inside – knowing I can help to make a difference for myself and for others by offering the business opportunity, sharing the love with showcasing such beautiful products, giving out and receiving free product as gifts and by enjoying the ambiance of burning candles.

I took my friend Bernie B, to the recent October Roadshow to show her the products and to share the excitement and atmosphere of a PartyLite event. I love the mystery of winning prizes, seeing new products, watching others get recognition and getting caught up in the positive energy of these events. Excitedly, she was encouraged to #JoinTheParty with the offer of additional Award Certificates to be achieved – and within a month, I've sponsored my first Consultant! Another WOW!

It was so easy – no paperwork, doing it all online.

I believe PartyLite is ageless and timeless – anyone can become a Consultant at any age and for as long as they want to be active in the business. The programs that PartyLite have developed are geared to sustaining a successful business, that's why it is timeless – it's a company that has stood the test of time!

I love the products, the people and friendships I have developed over the years, the laughter and good times, and how it has got me out of my comfort zone to grow and be the best version of myself.
